Scientist Whose Wife Was Injured by COVID Vaccine Tells FDA: 'Please Do Not Give This to Kids'

Brian Dressen, Ph.D., who is a chemist with an extensive background in researching and assessing the degree of efficacy in new technologies, told the U.S. Food and Drug Administration Pfizer's vaccine "failed any reasonable risk-benefit calculus in connection with children."

The U.S. Food and Drug Administration's (FDA) advisory committee on Tuesday endorsed Pfizer's COVID vaccine for children ages 5 to 11, despite strong objections raised during the meeting by multiple scientists and physicians.

Brian Dressen, Ph.D., is one of the scientists who testified during the 8-hour hearing.

Dressen is also the husband of Brianne Dressen, who developed a severe neurological injury during the Utah-based portion of the U.S. AstraZeneca COVID vaccine trial in 2020. After being injured by the first dose, Brianne withdrew from the trial.

During his 3-minute testimony, Dressen, a chemist with an extensive background in researching and assessing the degree of efficacy in new technologies, told the FDA advisory panel Pfizer's vaccine "failed any reasonable risk-benefit calculus in connection with children."

Dressen said:

> "Your decision is being rushed, based on incomplete data from underpowered trials, insufficient to predict rates of severe and long-lasting adverse reactions. I urge the committee to reject the EUA [Emergency Use Authorization] modification and direct Pfizer to perform trials that will decisively demonstrate that the benefits outweigh the risks for children. I understand firsthand the impact that you will or will not have with the decision you're going to make today."

ORDER TODAY: Robert F. Kennedy, Jr.'s New Book — 'The Real Anthony Fauci'

Dressen told the FDA how his wife was severely injured last November by a single dose of a

COVID vaccine administered during a clinical trial. He said:

> "Because study protocol requires two doses, she was dropped from the trial, and her access to the study app deleted. Her reaction is not described in the recently released clinical trial report — 266 participants are described as having an adverse event leading to discontinuation, with 56 neurological reactions tallied."

He said he and his wife have since met participants from other vaccination trials — including Pfizer's trial for 12- to 15-year-olds — who suffered similar reactions and fate.

Dressen said:

> "Injured support groups are growing. Memberships number into at least the tens of thousands. We must do better. Those injured in a trial are a critical piece of vaccine safety data. They are being tossed aside and forgotten. The FDA has known first-hand about her case and thousands of others. The FDA has also stated that their own systems are not identifying this issue and that VAERS is not designed to identify any multi-symptom signals. The system is broken."

Dressen said his family's lives have changed forever. "The clinical trials are not appropriately evaluating the data," he said. "The FDA, Centers for Disease Control and Prevention (CDC) and the drug companies continue to deflect the persistent and repeated cries for help and acknowledgment, leaving the injured as collateral damage."

He added:

> "Until we appropriately care for those already injured, acknowledge the full scope of injuries that are happening to adults, please do not give this to kids. You have a very clear responsibility to appropriately assess the risks and benefits to these vaccines. It is obvious that isn't happening.
>
> "The suffering of thousands continues to repeatedly fall on deaf ears at the FDA. Each of you hold a significant responsibility today and know that without a doubt, when you approve this for the 5-11-year old's, you are signing innocent kids and uninformed parents to a fate that will undoubtedly rob some of them of their life."

In an interview with 2News on Tuesday, Brianne said her kids will not receive a COVID-19 vaccine if approved. "I will react to the vaccine regardless of the brand, and so if my kids have this same genetic makeup, there is the high potential now that the same thing could happen to them," she said.

Since his wife's injury — diagnosed by doctors at the National Institutes of Health — the Dressens have met with other trial participants and families with children who also believe they were injured by the COVID vaccines. They formed a support group and website called, C19 Vax Reactions, to share their stories of vaccine injuries.

On June 26, Sen. Ron Johnson (R-Wis.) held a news conference to discuss adverse reactions related to the COVID vaccines — giving individuals, including Brianne, who have been "repeatedly ignored" by the medical community a platform to share their stories.

According to KUTV, the group continues to push the FDA and CDC for answers and help. Largely ignored, they reached out to Utah Senator Mike Lee, who wrote a letter to the CDC and FDA on their behalf.

Here is a blog with extensive injuries and videos updated weekly - this is criminal in ALL AGE GROUPS

https://www.unite4truth.com...

The level of insanity only increases with scientists now reduced to begging so they don't give drugs which have no substantive benefit to stop killing and harming people. Omg.

These drugs offer no benefit per vaccine trial data and do not stop symptoms, data clearly shows these drugs induce the same symptoms they are purported to suppress with far greater severity and rates than individuals experience with a positive PCR test (which is unsuitable for detection of Sars CoV2):

This is not science - it is a criminal and deliberate program to cause great individual and public harm under the guise of public health coordinated with a plan to destroy the American economy and allow corrupt power operatives to rearrange societal structure at its core. The contempt of those administering these programs against the interests of the American and global citizens is

open and palpable

Its covert war of the most COWARDLY kind

Munchausen syndrome by proxy on steroids

Very sorry for this man's injuries - we don't need trials or tests - we need to expose testing and attribution fraud and end this ENTIRELY.

NEVER consent

boldgandydancer ↗ Darla Garrett • 2 hours ago

We must make sure to collect all the names on the FDA Board.

2 ^ | v • Reply • Share ›

Kathrin ↗ Rose • 2 hours ago

Beautifully and powerfully stated, Rose. But I don't think the war is covert anymore, it's right out in the open and many people simply refuse to see it. We are dealing with mass psychosis and pure evil.

3 ^ | v • Reply • Share ›

trade0714 ↗ Kathrin • an hour ago

Yes, it's out in the open for anyone to see who takes the time to look. But far too many people still trust the government and what they see on the "Evening News with (fill in blank with talking head)"

ME MCC ↗ Rose • 2 hours ago

Wow on the resource...lots of good links. Thanks. Why are people going along with this? That's what gets me. Why? Do they have no soul?

Mary Nelson • 4 hours ago

It's okay to kill kids with a vaccine but if only injured, they are pretty much on their own. Maddie is another young woman in the same boat.
Pfizer DOES NOT CARE.

Darla Garrett ↗ Mary Nelson • 3 hours ago

So true. Steps must be taken to place liability and responsibility back on the pharmaceutical companies.

I do not understand what it is that seems to be embedded in the culture, but when you have a vaccine injury you become a leper. Few believe you and no one helps. I think sometimes they wish you were dead. I am not exaggerating. You have to experience the nightmare to believe the hell you are forced into on top of the initial physical injury. We have a family member severely injured 20 years ago by the insane pediatric vaccine schedule aggressively pushed by the CDC. So aggressively pushed that when we started refusing the poisons, the industrial medical practitioners unleashed child protective services on us. Yes, we became the criminals, the hunted ones. They wanted to institutionalize and medicate (at tax payer expense) rather than rehabilitate and educate in our loving home filled with extended family (at our expense). The reactions of the powers that be is inexplicable in the context of common decency. But when it comes to the truth about vaccines, it doesn't seem like common decency is in play. The unavoidable fact that due to the massive experimental vax program world wide now taking place, my heart breaks over the suffering that has and will continue to happen due to the dominance of the Mengele-spirit that has overtaken our public health agencies.
As Dr Dressen said and I confirm "I wouldn't wish this on my worst enemy"

pjmauigirl • 2 hours ago

It is unconscionable that study participants who left the study due to adverse reactions were not reported in the study results. Absolutely astounding.

HOW CAN ZUCKERBERG LOOK AT HIS FACE IN A MIRROR IF HE LETS THEM EXPERIMENT ON OUR BABIES.

2 ^ | v • Reply • Share ›

Nikki Isaacs • 2 hours ago

Let's hire Dr. Lee Merrit to replace Fauci...Merrit with 30 years military experience and former National President of the Physicians and Surgeons Association says what we call COVID is actually a bioweapon and should NOT be treated with vaccines.

Ektor • an hour ago

It has become more than obvious that big pharma, the FDA, CDC, AMA and joey do not care who they murder or how many they murder. Therefore, it is up to the parents to refuse these horrible mRNA injections, which are still extremely experimental, maybe. In one sense they are not experimental since big pharma, gates and fauci know that many will be severely harmed or murdered by these poisons.

This entire charade fits well with big pharma's and the modern medical system's desire to keep people sick and ailing so that they will need endless death care. More disease equals more profits. Your kids will become life long slaves of big pharma and the gutless, putrid doctors who are afraid to do the right thing. If they survive to become adults, they will require endless srone-age medical care and big pharma drugs and will never get healthy again.

Peg Futrell • 2 hours ago

The FDA is captured. Full stop. We must overthrow the tyrants.

1 ^ | v • Reply • Share ›

CastleConnell • 2 hours ago

Ms. Dressen knowingly signed up for an experimental trial and now the family's 'lives are changed forever.' There is abandonment at so many levels here, including self-abandonment it seems to me at least!
